

LADIES' CLOAKS
AND MISSES' AND CHILDREN'S TRIMMED
FELT HATS.
C. J. PETTIBONE.

Our Woodland Home.

The latest of our appearance is in consequence of the extra type setting, caused by the proceedings of the County Board.

Well, our readers can well afford to say nothing about our lateness this time, for we generally issue a day ahead, instead of two or three days behind, our publication day.

We regret to announce that Dr. Tompkins has made arrangements to move to Lake Superior, although we hope not permanently. He has made hosts of friends while with us, and we doubt not will make many new ones in his new field of labor. He has promised to let us hear from him occasionally.

Our County Board has made arrangements to have a number of extra copies of this issue, containing their proceedings, sent into the several towns, that the people generally may be posted as to their doings, and see the state of our county finances. This is a liberal provision of the Board and ought to be appreciated by the people. We will merely add, en passant, that those wishing to take a County paper, always alive to our general local interests, will always find us ready to accommodate them.

School District Clerks can be accommodated at our office with the neatness of Blank School Orders with stubs, at the lowest prices. Call and see specimens and leave orders.

To Whom it May Concern.—Notice is hereby given to all persons having unsettled business with the undersigned, that they MUST come forward and adjust the same previous to the 1st of January. P. WHITE, Appleton, Nov. 28, 1863.

Dr. Beach's remains (having been embalmed) arrived in town about a week since, and will be probably buried on Sunday next. His wife and children are expected here this week. A brother of the deceased was the first interment in our cemetery, sometime in the year 1849.

Our next issue will be but a half sheet. We have been delayed so much in getting out this number, and have so much work on hand that we cannot avoid sending out a half-size.

The Skating Park is now completed! And now for Mr. Jack Russell's services to freeze it up; and then, (after a call at Russell's for a pair of these splendid Skates) securing a ticket from Mr. West, what grand times will be had! Hurra for a grand skate!

Splendid!—Those beautiful Catwag Grapes at Allen & Jackson's Drug Store. Friend Allen presented We, U. & Co., with a huge supply thereof, and said something about "compliments to wife," but we just couldn't stop to think of wife—we'd got a heavy taste of grape, (no cannister,) and felt warlike, so we let into the pile. We arrived home in time to allow wife a sight at the last grape hiding under the Editorial tongue.—Presented our "better half" with a finely assorted pile of stems. Moral to Ladies: If you desire some delicious grapes go to Allen & Jackson's, but never send any home by husbands!

We are glad to herald the progress and development of our manufacturing interests. The Hub & Spoke Co., under the direction of its industrious and energetic managing agent, M. R. Barbeau, has been very successful and built up a large and profitable business. In this connection it gives us pleasure to introduce to our readers Mr. James N. Heath, from Waukesha, who attracted by the beauty of our town and its educational advantages, has purchased a residence and come to reside here. Mr. Heath is a thorough reliable man, of strict integrity, as is shown by the fact that he has the confidence of the entire community, where he has been in trade for nine years past; besides he brings with him the experience of years of successful labor and enterprise. Having purchased an interest in the Hub & Spoke factory, after the 1st of Jan. next, he will give his time and attention to this institution. This circumstance has an importance, beyond the gratification of curiosity or as a local item of news, since it has a real practical bearing on the interests of our farmers and all who are clearing land. As Mr. Heath brings capital to employ in his business, and who have timber suitable for Hubs or spokes have only to bring it to the factory to get a liberal price in cash for it.

Mr. L. P. White, Jr., writes us from Escanaba, that 12 miles of the Peninsula R. R. track is now laid and that over 20 more will be completed before next spring.

The mails have been "sandy" out of joint during the past fortnight, owing to the new changes in the R. R.'s running time, together with an accident at Oshkosh. "Time at last makes all things even."

Among the leading persons drafted in this city were the following: Ex-Senator T. R. Hudd; Hon. Geo. Kreiss (Assemblyman elect); Geo. I. Brewster (Proprietor of our Barrel Factory); J. C. Smith and T. D. Kellogg (City Marketmen); J. W. Carhart, Jr., and Theo. W. Briggs (Clerks in Pettibone's stores); E. W. Enos (Appleton Tannery); John B. White (R. R. tie contractor); C. P. Richmond (Appleton Paper mills); M. H. Gilbert (Gilbert House); and Cornelius Driscoll (Co. Supt. elect). One "American citizen of African descent" (B. C. Johnson) was caught in the wheel, but it is thought the U. L. will pay his \$300! We didn't catch a dam, probably owing to our "disloyalty!"

Charles Grunert is making many friends by the promptness and care exercised by him as Clerk of the County Board. He is one of the best penmen in the County.

The business at the County Treasurer's Office is being conducted in such a systematic manner that the financial condition of the county can be seen at almost a glance. Full accounts between the Treasurer and the various towns are kept, and published in the report of the official. Mr. Brouillard makes one of the most efficient Treasurers we have ever had, and will Lamphear keeps the books as neat and correct as it is possible to be done.

"Good bye, Boys!"—Capt. G. R. Wood, 32d Wis. inf'y, sent off a crowd of as good looking recruits on Monday last, as any Soldier would desire to see. The boys left feeling anxious to reach "Dixie" and do duty. God bless them!

Christmas festivities will be duly observed in our several churches in this place. Arrangements are now being made to make the occasion pleasant and profitable to all. More particulars will be given hereafter.

Another Change has been made in the Chicago & N. W. R. R., to go into effect to day: (Monday).

We understand that the ladies of the Soldier's Aid Society have made preparations for giving an entertainment at Adkins Hall on Wednesday evening next, for the benefit of Soldier's families. Tableaux, Grab Bag, &c., will be the order of the evening. Let everyone go and receive a dollar's worth of fun—all for a "Quarter."

Jayne's Panorama of the War, is to be exhibited at Adkins Hall on Monday evening next. "Of course" everyone will attend.

The distributing Committee appointed on Thanksgiving Day, are dispensing the fund entrusted to them, to the families of our absent Soldiers, and if any such families have been omitted, those cognizant of the fact will do well to give their names to this committee and their cases will be attended to. The Ladies Aid Society is acting in co-operation with the Committee in this good work.

The Boy's Engine House is now in position next door east of the Crescent office. Mr. Bates is fitting up the Building for the reception of the Machine.

Christmas is coming, and those who wish to make purchases of presents for young and old will find out where to invest in our advertising columns. Liberal advertisers are always liberal dealers. Mark that well in investing. "Those who run" will read!

We are informed by David Smith & Co., that there is a perfect rush for Insurance in the staunch old Ethna, of Hartford. This company has stood through many a financial storm, and gained strength till now it is regarded as one of the Fire Insurance pillars on this continent; while hundreds of other Insurance Companies, regarded safe at the period of their existence, have had to sink under the financial storms—and so it will be again. People, therefore, naturally and wisely seek protection, now-a-days, where they will be safe and secure in any contingency. The "Ethna" like gold, must continue at a premium.

W. S. Warner is doing a heavy business insuring property in the "Arctic." It will be remembered that this Company had a risk of \$2,500, on the Wooden Mill, which was promptly paid long before actually due. It is one of our most reliable companies.

Frank Bernard has a beautiful stock of knick knacks for the Holidays.

The present members of our County Board of Supervisors have now completed their labors and adjourned sine die. That, as men, they have endeavored to act for the best interests of our County, let the present healthy condition of our finances bear witness. Every person is well aware that for a long time we have been compelled to see our County orders hawked about the streets at a discount of thirty to fifty per cent., that sharks have made money at the expense of the people.—Those days have passed, we trust, forever. Our County Orders are now actually worth dollar for dollar! To the efficiency and energy of the present retiring Board are we indebted for the present prosperous condition.—Impartiality and strict justice has marked their administration. We hope the incoming Board may so administer our County matters as to keep up the present commendable state of everything pertaining to the welfare of the people.

PERSONAL.—Lieut. P. J. Williamson, 1st Wis. Cav., arrived at his home in this city Wednesday last, looking all the world a "bold soldier boy." His regiment is stationed at Alexandria, Tenn., and numbers about 450 effective duty men. He is on recruiting service, and is prepared to "swear in" all who may wish to join a reg't which has won bright laurels in many well-fought battles.

Lyman C. Wait, 21st Wis. Vol., reached his home here on Thursday last, and looks excellently well. He is also on recruiting service for the gallant reg't to which he belongs.

Lieut. J. A. Owen, 1st Wis. Cav., dropped into our sanctum on Friday, looking tough and hearty. He has resigned his position in the army, and intends cultivating a Mississippi cotton plantation in company with a number of Milwaukee boys.

MARRIED.—In Appleton, Dec. 2d, by Rev. D. H. Conant, Mr. LEONARD H. BROWN, Publican at Appleton, and Miss MARY E. BROWN, of Appleton.

DIED.—In this city on Sunday, Dec. 2d, after a long illness, Mr. PETER MERRILL, aged 43 years and 11 months.

Local. Capt. M. C. MEADE, of the thirty-second, an officer who has earned a reputation both for himself Company E (of which he is commander,) and the Regiment, as an indefatigable officer, gave us a flying call on Monday. He rejoins the Regiment at once at Memphis for active field duty, and like the Badger Boys generally will neglect no spot or place to "unhorse" a rebel! Give the brave boys a chance, and victory will follow them.

The Winter Term of Lawrence University will commence on Wednesday next. Students should make their arrangements to enter promptly at the time. The prospect is flattering for a large attendance. The public are rapidly realizing the fact that our University is one of the best Institutions in the State.

The increasing numbers of Students coming hither for an education, proves this beyond cavil.

At the recent session of Court for this County, Kesting, Komma, and Roberback, and another German, were tried for being engaged in the jail riot a year ago, and were each found guilty. They were sentenced to pay a fine of \$100 each. Our District Atty. conducted the prosecution admirably for the State. Messrs. Hadd, Myers and Cotton, were for the defense.

Russell's Skates have come! For Ladies, Gents, Boys and Girls. What hurrying and crowding there will be to "pick out the best." They are beautiful, substantial, and the finest assortment ever offered for sale in town.

Those Town Treasurers who intend giving us their orders for Blank Receipts must bring them in soon, if they want them printed cheap. We have received a number of orders and when we commence printing them we wish to finish all at once. Remember we can get them up cheaper and neater than any other establishment in Northern Wisconsin. Send in at once!

A LUCKY MILL.—Last fall the Albion Mills at Kaukauna had two out of three drafted. Charlie Cord then escaped. This year Charlie is "called" to march or hand over the "root of all evil!"

Lawrence University, College Avenue, Appleton, Wis.

The Crescent.

Official Paper of the City and County.

APPLETON, DEC. 5.

We have found somewhere an entirely new reading of Shakespeare, and herewith present a part of the "crook-back tyrant's" first soliloquy, slightly Tennysonized, for the especial consideration of the oratorical Strucked:

A great Union mass meeting was held in Knoxville, Tenn., on the 24th ult. The weather was exceedingly inclement, but the attendance numbered nearly 10,000, some of the Tennesseeans traveling forty miles to be present.

There are 38,284 houses of worship in the United States, of which 12,811, or about thirty-three per cent, are in rebellion.

The largest locomotive in the United States, if not in the world, has just been built for the Philadelphia and Reading Railroad Company. It has twelve driving wheels, and weighs more than 100,000 pounds.

There are 1,761 vessels on the north-west coast, including 133 steamboats, 233 propellers and tugs, 191 barks, 78 brigs, 1,630 schooners and 59 sloops and barges.

The shirt-makers in New York earn exactly six-and-two and a half cents a dozen, and by working their fingers to the bone can complete six garment per diem. Sing away, Hood.

The people of the Northern States have sent, within the past year, \$382,000 in money and provisions, as charity, to the needy operatives of France and England.

The *Steel Exchange Journal* of the Minister of War, showing that the Russian regular army consists of 31,375 officers, and 855,997 privates, and the irregular army of 1,818 officers, and 302,601 privates, making altogether 31,674 officers, and 1,161,958 privates.

A top, just returned to England from a Continental tour, was asked how he liked the ruins of Pompeii. "Not very well," was the reply; "they are so dreadfully out of repair."

Gov. Ramsey, of Minnesota, has brought to Washington the treaty with the Indians on the Red River, by which we acquire 11,000 acres of land and all obstructions to traders from St. Paul are removed.
